

Dear Mary Monson

I am absolutely delighted with the level of support and guidance provided to me by both Hojol at Mary Monsons and Will, the lawyer that handled my case.

Throughout the build-up to the case itself I was worried about many things and my mind was always put at rest by both of them. I was consistently contacted by Hojol every time there was anything to bring to my attention, which meant I spoke to him for over an hour weekly during the months leading up to my court case.

I was also worried I would be left approaching the court date without having the opportunity to converse with my legal representative, but this worry was alleviated by another example of excellent professionalism and fantastic support by Will. During the build up to the case I mentioned many concerns to Will and he always answered my queries quickly and put my mind at ease immediately.

On the day of the case Will was amazing. His performance in court during the cross-examination of witnesses was a delight to behold and his tireless work throughout the day was most appreciated. It was a very long day, what with court delays and the case being put back a few hours, but Will worked through all of this with the utmost professionalism and supported me through the stresses of the day. For all of this I am truly thankful.

I have no hesitancy in recommending both Mary Monsons and their legal representatives to all who are seeking support for their defence in a court of law. The professionalism and kindness shown by them is second to none.

Kind Regards
